SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently
approved collection of information:

Title: Notification Requirements for Coal and Wood Burning Appliances

OMB Number: 3041-0040

Type of Review: Renewal of collection

Frequency of Response: On occasion

Affected Public: Manufacturers and importers of coal and wood burning appliances

Estimated Number of Respondents: An estimated five submissions annually

Estimated Time per Response: Three hours per submission and 30 minutes for collecting and mailing the information to the CPSC.

Total Estimated Annual Burden: 17.5 hours (5 submissions x 3.5 hours)

Total Estimated Annual Cost to Respondents: \$1,212, based on an average total hourly employee compensation rate of \$69.23 for management, professional, and related occupations (Bureau of Labor Statistics: Total compensation rates for management, professional, and related occupations in private goods-producing industries, March 2018) (17.5 hours x \$69.23).

General Description of Collection: 16 CFR part 1406, Coal and Wood Burning Appliances—Notification of Performance and Technical Data requires that manufacturers and importers provide consumers with written notification regarding certain technical and performance information related to safety on each coal and wood burning appliance. Manufacturers are also required to provide to the CPSC a copy of the notification to consumers and an explanation of all clearance distances contained in the notification. For existing models, all known manufacturers have complied with the requirements. Accordingly, there is no new burden associated with the requirements of 16 CFR part 1406, except in cases where existing models are changed, or new models are introduced. Less than five submissions are estimated annually from new stove models coming into the market, or new firms entering the market.

Request for Comments

The CPSC solicits written comments from all interested persons about the proposed collection of information. The CPSC specifically solicits information relevant to the following topics:

- Whether the collection of information described is necessary for the proper performance of the CPSC's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic, or other technological collection techniques, or other forms of information technology.

Alberta E. Mills, Secretary
Consumer Product Safety Commission
